TESTIMONIALS

The New Homes Register

...I had a client relocating from Minneapolis and sent her a copy of the register before she relocated to the area to get an idea of the new home construction in the area. She had heard about Oak Creek - NV Homes Previously and was able to use the register magazine as a basis for her search in comparing them to other builders in the area.

I also have a military family relocating from Panama City, FL. I used The Register Magazine as supporting documentation in the welcome to the DC Area Package I sent them. They loved it.

Royal Dominion Realty

...I used the Register to sell a new home from Ryan Homes in Kirkpatrick Farms in Aldie, VA. I am very happy using the register to help buyers looking for new homes.

...We LOVE the Register! It is well designed. Easy to use and by far the best publication of its kind in the area It saves us time with new clients and helps us keep our existing clients up to date with options in one area...

...It's Barbara Nalls! We actually have a listing that we think should go with you guys rather than in the mail. Please tell me what we should do and how much it costs. Thanks. By the way, I think you are going a great job - the headlines are very clear so I only click on things that are interesting to me...

...I use the Register when my clients want to know where the best new communities are, there is no better resource to refer to. With detailed information it is a wonderful tool.

...Randy, I have used "The Register" for over 10 years. It is one of the only publications that I keep as a reference tool. The Internet is great, but your handy little book distills a ton of information down to a format that works for me!

...I use the Register every month to find new builders, new communities, area Realtors, and new service companies throughout the area. It's a beautiful and informative publication that I would recommend to all real Estate professionals. Advertising with the Register is always affordable, a valuable media outlet, and the service is exceptional.
